

THE MARSHALL REPUBLICAN.

VOL. VIII.

MARSHALL, SALINE COUNTY, MISSOURI, JULY 14, 1899.

NO. 42

LIVE STOCK WORLD.

Dr. W. A. Porter, according to the Sedalia Capital recently vaccinated sixty head of cattle belonging to J. A. Ware as a preventative of blackleg. "Vaccination in this case is merely introducing into the animal a mild form of the disease. It gives the cattle a mild form of blackleg and forever after that they are safe from attacks of this disease which is generally fatal. Blackleg kills the animal in from twelve hours to two days."

F. M. McRoberts, of Malta Bend, sold 34 branded cattle, 1221 lbs, at \$5.50 in Chicago Monday.

F. W. Marshall, of Blackwater, sold 64 branded cattle, 1385 lbs, at \$5.45 in Chicago Monday.

Houston Bros. of Malta Bend, sold 64 cattle averaging 1375 lbs at \$5.45 and 21 Texans, averaging 688 lbs, at \$4.05 on the Chicago market Monday.

Clough & Field, Napton, had 36 head 1,061 pound steers on the St. Louis market Tuesday, that were sold at \$5.10 to Swift & Company.

SECOND BAND CONCERT.

The Marshall Cornet Band which gave its opening number last Friday night, rendered the program given below, last night. Large crowds have attended both times, and the people are anxious to show their appreciation of the band's effort in furnishing Marshall entertainment for at least one night per week, during the dull summer season.

Every rig in town may be seen on these occasions and those of others, non-residents, who drive in, for a pleasant evening are frequent. The County Court having refused to allow the band boys to play in this yard, the veranda at Ming's hotel and a stand erected on the east side of the square, have been used for the purpose, while the crowd flocks in upon the grass, that has for several years been so well taken care of. Such seeming thoughtlessness in tramping upon this grass that has gone to seed, must be very exasperating to the honorable judges, who so quickly refused the band boys, the privilege of playing there. But the humor of the situation, when you conceive of the way in which the gnat has been strained at and the camel swallowed is indeed amusing. Like Cleveland, when visited at the national capitol

by "Coxey's army," the court should post a few signs "keep off the grass."
